

Company Overview

Established in 1985, Specified Architectural Systems, Inc. (SAS) is a premier distributor and certified installer of specialized architectural products, focusing on daylighting, space flexibility, and fire and smoke separation solutions.

Based in Tampa, Florida, SAS holds exclusive distribution rights and is the certified installer in Florida for renowned products such as Kalwall and Structures Unlimited translucent daylighting systems, Skyfold vertically folding retractable walls, Smoke Guard fire and smoke curtains, and McKeon special purpose fire door systems. With decades of experience, SAS provides comprehensive design assistance, budgeting services, and installation expertise to the architectural community, general contractors, and building owners.

Core Competencies

- **Daylighting Solutions:** Expertise in the installation of Kalwall and Structures Unlimited translucent daylighting systems, enhancing natural light penetration while maintaining energy efficiency.
- **Space Flexibility:** Specialization in Skyfold vertically folding retractable walls, offering innovative space management solutions for various architectural needs.
- **Fire and Smoke Separation:** Provision of Smoke Guard fire and smoke curtains and McKeon special purpose fire door systems, ensuring compliance with safety regulations and enhancing building safety.

Differentiators

- ✓ **Exclusive Distribution Rights:** Holding exclusive distribution and certified installer rights in Florida for industry-leading products, ensuring clients receive top-tier solutions.
- ✓ **Comprehensive Service Offering:** Providing end-to-end services from design assistance and budgeting to installation, facilitating seamless project execution.
- ✓ **Proven Track Record:** Over three decades of successful project completions across various sectors, demonstrating reliability and expertise.
